PIRATE CONNECTION #13

THE SCAPDINAVIAN FREE PADIO MAGAZINE

THIS EDITION'S EXCLUSIVE STORY:

RADIO PAMELA LEVEL 1 INTERNATIONAL THE BLACK BOOK

- new & complete address list

Brian Young, DJ on Radio Pamela.

This is **Pirate Connection**, a Free Radio magazine focusing on Scandinavian, European and North American pirate radio. PC is published 5 times a year and the contents will in many respects be dependent on contributions from our readers. Everyone is therefore invited to send in just anything of interest, news, logs, articles etc. **Web**: http://www-pp.kdt.net/jonny/pc/pc.html.

Subscription rates

Subscription 1 year (5 Issues): Sweden 150 SEK, Scandinavia 180 SEK/28 USD/35 DEM/18 GBP, Europe 195 SEK/30 USD/40 DEM/19 GBP, Air mail worldwide 215 SEK/33 USD.

Sample copy: Sweden 30 SEK/4 IRCs, Elsewhere 35 SEK/5 USD/3 GBP/5 IRCs.

The money can be sent by cash (In any currency) to Stefan or be sent to Stefan's personal postal giro account 690708-2710 (add SEK 28 If transferring to our giro account from abroadIII). Don't send any checks or coins!

Editorial

Another Christmas has passed by and I must say it was a disappointment as far as conditions are concerned. Both November and December had some spiendid weekends and at the time I thought this was a promising indication for the upcoming Christmas season. But, conditions are always unpredictable. Both Christmas days had bad reception, especially Boxing Day. A pity, because Level One International carried out one of their rare broadcasts on that particular day. I think the concept of co-operation and exchanging of ideas is good for European Free Radio. With more stations adopting this openmindness, the Free Radio scene would become more interesting and paving the way for more contacts between operators and listeners. One of the brains behind Level 1, Chris Ise of Crazy Wave Radio, is one of those new contacts we have made and in this issue he makes his debut with his Crazy Thoughts! Another new acquainance you will make this time is Mary Jo Ondrechen from the US. Her eminent Blackbook will from now on replace my former address list CPL. Feel warmly welcome both of you! To sign off, i have some really sad news. Norman Nelson, operator of Radio East Coast Commercial, sadly passed away in November. Norman was one of the most respected and appreclated broadcaster in Free Radio. The vacuum he leaves behind can never be repleaced. Stefan

EURO PIRATE SCENE

Stetan Printz Tegelfårdsgatan 14 211 33 MALMÖ SWEDEN xtdspz@lmd.erlcsson.se

After several years of absence, Gaanderen based Radio Arena International was active on New Year's Eve on 6272 kHz with a pop/rock format. The signal was very strong but the operator had some problems with modulation distortion. The frequency also driften a little bit while the programme went on. QSL-cards and stickers are available if you write to the address Box 47, 7010 AA Gaanderen.

A station with a very low profile is <u>Radio City</u>. Transmissions have, according to some rumours, been resumed on 7485 kHz in the 41 metre band. If anyone knows anything more about this, please write in and tell!

We have some very sad news to report this time. Norman Nelson, one of Britain's most prominent and loved pirate operator, passed away on Wednesday evening the 22nd of November, only 49 years old. We've been told that Norman suffered from a brain tumor. Norman operated one of pirate radio's most classical stations, Radio East Coast Commercial since the 70's. We are many that will miss the station and especially the DX-programme. However, some of Norman's radio friends are thinking of continuing the station and be sure we will report on this if they decide to return.

Most of you have surely not missed the new station on 6400 kHz, <u>Radio Free London</u>. In fact, the station claims to be Britain's eldest land-based pirate station with first transmissions carried out in 1968 on the FM-bandi In March last year, RFL returned on 99.1 MHz

with regular Wednesday and Sunday evening programmes. The response from listeners were poor however, so a decision was made to close down the FM-broadcasts and instead give the European listeners a chance to hear the station on shortwave. The address to RFL is Box 99, 19 Station Road, London SE25 5AH, England. SPZ SRS

Radio Fusion International made a return to shortwave and at the same time a debut on 48 metres when they returned on 6260 kHz through the Level 1 International broadcast on Boxina Day. Reception was reported as fair to poot in different parts of Europe, but one should keep in mind that conditions were extremely bad this day. The power used is 200 W feeded into a half-wave dipole antenna. Operator Jolly Jake says that he plans to be back with at least a one hour programme any of the coming Sundays In February on 6260 kHz. The 6260 outlet will only be used temporarily though as Jake is looking for a frequency not used by any other pirate within the 48 metre band (a difficult task perhaps!). Next broadcasts is planned to be taking place on February 18th on 6260 kHz, unfortunately this has already been carried out when you read this. At present, Fusion can not be contacted through ordinary mall. The operator of the Halden address in Norway moved houses a long time ago. But Jake will surely get a new one in the near future. You can contact him through e-mail though. The address is: fusion@srs.joy.se.

Radio Grenslager (Border Hunter) is originally a mediumwave pirate that began broadcasting on 76 metres in December. The first transmission was carried out on December 2nd on 3920 kHz. Operator is 32-year-old Frans who also can be heard most Monday evenings on 1656 kHz from 20.30 UTC. On hour later, the station can be heard on 3920 kHz. The transmitting site is located in Beligum even though the operator is Dutch

and probably living in Holland. The address for this station is Box 136, 5110 AC Baarle-Nassau, The Netherlands.

Heavy Dude Radio - the station for all fans of hard-rock and heavy metal - returned to shortwave on January 14th. A Swedish listener noted the station with a weak signal on 7418 kHz. Operator Mr. Heavy Dude says that the station will try to continue regularly on a fortnightly basis. Frequencies will be 7415 and 7418 kHz.

Radio Horizon Is a new Dutch "powerhouse" station that was heard during Christmas and New Year with strong signals. The power used must have been at least a few hundred watts! On Boxing Day, Horizion was noted on 6304 kHz with schlagers, Dutch folk music and occasional announcements. The address is Box 108, 7720 AC Dalfsen, The Netherlands.

International Music Radio say they will try 9240 kHz in the 31 metre band (see also info on Radio Tonair International) weekdays and weekend afternoons. Operator Yves is also on his way to start off mediumwave transmissions in the 1645-1680 kHz area!

One of the main highlights during the Christmas season was Level 1 International. which hit the airwaves on Boxina Dav. December 26th with a line-up of eight different European Free Radlo stations on 6260 kHz. The broadcast commenced with the founders of this joint venture, Crazy Wave Radio and Radio Benelux. The other stations were Transatlantic Radio, Radio Torenvalk (both Holland), Weekend Music Radio (Scotland). Speedwing Radio (Germany), Süd West Radio (Germany) and Radio Fusion International (Sweden). The latter took the opportunity to make a return through the Level 1 project after two years of absence from the shortwave bands. Also WMR had been Inactive for quite some time, as far as I know, Each station provided nice and wellproduced programmes with lots of various and funny lingles. In my opinion the best ilngle package ever to have been produced by a shortwave pirate! The ones I remember most is the one by Radio Torenvalk who

imitated a Turkish presenter and the station presentation ilngle by Crazy Wave Radio. Unfortunately, conditions were poor throughout the Christmas period with worst conditions noted on Boxing Day (extreme long-skip conditions!). Many listeners say they couldn't hear all stations, although no station used less than 50 W. As for myself, I heard all stations pretty well the first hours, but after noon conditions grew unmercifully worse and worse. The organizing of this event was a success and all the stations came on the air according to the secret schedule. Conditions-wise however, it was a fallure with only a few reports being received. Level 1 Internatlonal are already preparing for the next broadcast which is believed to be taking place some time this spring or summer. Two broadcast a year will be carried out according to the organizers Chrls and Martin, Contact address is the Wuppertal maildrop. A fine special QSL-card is available for 2 IRCs.

SPZ

Radlo Lollipop - "the children's station on shortwave" - is station from Germany not heard for quite a while. Noted on New Year's Eve on 7415 kHz. The contact address is still Wuppertal.

Radio Mistero Is an Italian station currently broadcasting on 7240 kHz. The station is rather old and started on FM back in 1976. Broadcasts are done each Sunday from 9.30 UTC and are hosted by Captain Ghost, Riff Raff, Casper, Jasmine and Magenta. The last two are female presenters. Address is unknown.

<u>Plrate Connection WEBI</u> Pirate Connection is probably the most Internet-friendly Free Radio mag on the market. Now there is also a WEB-page for PCI Here you'll find some

general information about PC and the email-addresses to our regular columnists. Why not explore yourself? The address is http://www-pp.kdt.net/jonny/pc/pc.html. There will soon be an updated page available with lots of nice pictures in it. SPZ

Radio Ridiculous is in fact an abbrevation for Radio In Diversion Intending Coummunications Under Limited Options!! The station used to broadcast in the mid 80's on the 41 metre band, but since then the broadcasts have been very rare. They are still alive though and have been active recently on 76 metres. The address remains the same: Box 1019, 2200 BA Noordwijk, The Netherlands.

SPZ

Radio Samorodinka was an Impressive logging on Christmas Day by a DX-er In central Europe. The programme was heard on 3923 kHz with talk in Russian and plenty of Russian folk music (sounds like a counterpart to the Dutchies!). The station is believed to be run by a 65-year-old man with only 10 W of power. The address to write to Is Box 898, Russia-Glavpochtampt, Moscow 101000, Russian!

<u>Starshine Radio</u> recently celebrated its 3 years anniversary, namely on December 16th on 3940 kHz. The programme contained many golden Christmas oldies. Address: Wuppertal.

Radio Strike Is now active on 7450 kHz with an own transmitter.

Radio Tonair International recently sent Lars a reply on his reception of the station on December 17th which was heard with good signal strengths. During this test transmissions, lots of modern dance music were played and the operator's friend Radio Torenvalk as well as Radio Fusion International were interviewed over a telephone line. The test was the second to be carried out on the odd 9421 kHz outlet that Tonair stubbornly uses. Besides Lars' report, there was also a report from Ukraina. Operator Jos says the power used is 50 W and that the next broadcast will be carried out together with Radio Torenvalk on February 18th under the name Radio

New World. Radio New World is a joint "crazy station" project that started off in 1988 between Tonair & Torenvalk, so expect many odd things in that programme. Both 9241 kHz and a frequency in the 31 metre band will be used.

<u>UK Radio</u> sent me a very nice reply on my report from November 26th. This station is not new, as incorrectly suggested by many other sources. In fact, it's the good old UK Radio operated by **Paul Johnson** which has been around for many years now. Even the famous programmes by **Kelly Brown** and **Sue Jacobs** in 1984 and 1985 were from UK Radio, Paul "thinks". Paul also says that UK Radio can be heard on 7350 kHz in parallel with the main frequency 6233 kHz. The address is: Box 53, Bilston (not Bilstone!), Wolverhamption, West Midlands WV14 6YS, England. SPZ

A few weeks before Christmas, Radio Waves International announced on Internet that they would return on shortwavel No further specific details were given, but on New Year's Eve, Lars heard RWI on 11401 kHz, the classic RWI outlet. Nice to have Peter Hills back, I'm sure we are many that have missed him!

Z100 was a new, professionally-sounding station heard on Christmas Day 1995. The station used lots of jingles from the original Z100 in USA and played lots of rock muslc. Herbie The Fish, the Infamous operator of XMAS (Interviewed in PC #12) is believed to be the guy behind this. The following address was announced for station contacts: Box 53121, 1007 RC Amsterdam, The Netherlands. SRS

US PIRATE SCENE

Chris Lobdell
P.O.Box 146
STONEHAM
MA 02180, USA
75720.253@compuserve.com

Hello folks and welcome to another Issue of the U.S. PIRATE scene. The past few months have seen a great deal of activity, almost exclusively on 6955 kHz, with a few exceptions. The FCC was closed down during part of November and much of December due to a budget crisis. Activity continued to be strong up until the first week of January, but has dropped off now that the FCC is back to work. Unless otherwise indicated, the frequency used is 6955 kHz

The month of November was a big one for the <u>Free Hope Expericence</u>. They were heard many times. Station operator Major Spook was noted on November 5th at 0514 going to past 0600 playing rock music and discussing UFO visitors from outer space. FHE was also noted on November 12th at 0430. 0535 and going as late as 0640 utc.

Johnny Canuck Is sort of a pirate-clandestine station who came on for the elections in Quebec. He wanted Quebec to remain part of Canada. He was heard on 7470 kHz at 1400 utc talking about the elections and playing Canadian mx on November 5th.

<u>KEND</u> (the Execution Station) made a brief appearance on November 1st at 0145 celebrating the execution of Andrew Lee Jones.

The Voice of the Daleks was heard via NAPRS on 6250 kHz at 1415 utc. The head Dalek was out to get He Man of He Man Radio for QRMing his last show!

The Finnish pirate <u>Northern Music Radio</u> was heard via relay on November 11th at 2013 playing punk and rock music.

Another new station heard was <u>Radio Barnyard</u>. Captain Cowpatty was sitting on top of a cow, playing C&W music with no shoes on! They were heard on November 6th around 0100 utc.

Radio Free Speech, another new station, only uses a 10 watt AM transmitter, but is heard quite widely! Bill O. Rights, the station Op.

Addin Lanterira

A new medium wave pirate station <u>WJTS</u>, 1630 kHz was first heard in November. They use very low power and operate from Florida playing religious music and reading from the Bible. They use the slogan John 3:16 Radio.

WJFK, the pirate that usually shows up on the anniversary of John F. Kennedy's death, came on early this year, shortly after the death of Israell Prime Minister Rabin. They were heard on November 5th at 2230 utc, playing the song "Abraham, Martin, and John" by Dion.

WPN (The World Parody Network), made it's first broadcast in October, but has been heard consistently ever since. They have to be considered the most active pirate right

now. They were noted on November 11th from 1930-2030 utc.

Towards the end of November, <u>Computer Radio</u> was heard on the 23rd of the month at 2030 utc. They played computer generated music and "Innagaddadavidda" by Iron Butterfly.

East Coast Music Radio gave us a show of interesting Hawllan music on November 17th at 2330 utc on 6960 kHz.

<u>Up Against the Wall Radio</u> was back for a nice Thanksgiving Holiday show. They were heard on November 23rd around 1945 and again on the 24th around 0130 utc. The best part of their show was the "Alice's Restaurant" by Arlo Guthrie which tells a funny true story about a few people who got into trouble by dumping trash in the wrong place!

December 1995 started off with a bang with <u>Big Johnson Radio</u>, the" Big Johnson" refers to a large edition of the male reproductive member! They were heard on December 2nd at 2300 with DJ E. Normous Johnson, playing comedy about masturbation, and music by Warrant and ZZ Top.

Interstate 44 is a new station heard on December 2nd. They were noted at 2258 playing lots of march music and talking about different cities located on Interstate 44.

<u>Pirate Radio Boston</u> was back after about a year. Charlle Loudenboomer and Mr. X were first heard on November 28th at 0200 utc. They had a song contest, played reggae music and talked about various plrates that didn't QSL.

<u>WAOJ</u> (The Anti-OJ station), is another new one. Heard on December 3rd at 2130. They played bits of audio from the O.J. Simpson trial and played lots of music such as Pat Benatar's "Hit Me With Your Best Shot".

Ihe North American Pirate Relay Service (NAPRS) was quite active during Christmas and New Years. On December 14th at 0000 they relayed Happy Hanukkah! On December 16th at 1510, they relayed the German pirate Radio City, "The Station Of The Cars". Other stations that NAPRS relayed were Star Club Radio from Germany at 1900 utc on December 23rd, and WKND on December 25th at 2000 utc. Radio Animal was the host and he talked about dog kissing in the movies and on TV.

Mystery Radio, a new station was heard December 13th at 2300 utc playing electronic Christmas music and audio cuts from the movie "It's A Wonderful Life". The program was also repeated in December 16th.

A new holiday station which was well heard was <u>The Volce of Christmas</u>. The station claimed to be the only pirate broadcasting from the North Pole! They were first heard on December 16th around 2315, playing Christmas music and using Christmas cuts from David Seville's Alvin and The Chipmunks.

WRV "The Radio Virus" was active as well. Heard on December 17th at 0600 with rock mx bythe Red Hot Chilli Peppers with a Spoof on Newt Gingrich. The WRV Christmas show was heard on December 24th at 2150 utc.

The month ended with a nice show by <u>KOLD</u>. This Big Band format pirate featured an all Guy Lombardo program to bring In 1996

with! They were heard on December 31st at 2030.

January started off with lots of pirate activity, but that soon fizzled after the middle of the month. He Man Radio was heard on January 6th at 2130. He Man was talking about the baseball and football teams in Cleveland, Ohio. He Man also fired back at the Voice of the Daleks saying he was going to reduce them to just a memory!

KMCR-Magic Carpet Radio, the West Coat plrate was heard on January 2nd around 0120 with just bits of audio here on the East Coast. They were also noted around 0244 as well.

We had not heard from <u>Radlo Beaver</u> in a while. They came back on at 2000 on January 6th. Buck Beaver, the station's host, said Canada should separate from Quebec and let them fail. The station uses the theme music from the 1960's TV show "Leave It To Beaver". Bram Stoker continued his three year+ run with another new show. They were heard via relay on January 6th at 1940 featuring a "Top Ten List Of Why To Keep Your Daughters Away From Dxers"!

WLIS was active over the New Year's weekend featuring special shows to go along with all those college football bowl games. Shows featured the Cotton Bowl, Rose Bowl, Flesta Bowl and Sugar Bowl.

WMOM was a new station that was first heard on January 1st. They were heard around 0420 utc., featuring a female singer singing "F--k Me Baby". They sald that MOM upside down is WOW.

KDED was active throughout December and January. They were heard with a relay of the Europirate Radio Camouflage. This was first heard at 0500 on January 14th playing the song "Convoy" by C.W. McCall.

<u>Friday Radio</u>, which always appears on local Friday nights was heard on January 26th at 0026 utc with the announcer screaming "It's Friday!" over and over.

That's it from this side of the Atlantic!

THE BLACK BOOK

Mary Jo Ondrechen USA maryjo@neu.edu

The Black Book was put together by Kirk Trummel, who compiled the addresses of about 1000 stations, s of 28 October, 1995, I took over the job of updating the Black Book, and will do my best. I have deleted the MW-only or FM-only entries, to emphasize SW stations, his greatly decreases the size of the file, to save time (and \$\$, for commercial net users) in downloading. All of the MW and FM stations are still listed in Kirk's "Final Update", which I have kept as an archive file. Just contact me if you need a copy. The archive also contains an extensive listing of inactive, defunct, busted, etc. stations. Stations last heard prior to 1992 have also been deleted. For Info on these old stations, again I refer you to the archive, and thanks so much to Kirk Trummel.

The Black Book gets updated frequently. If you want a more current version, just send me an e-mall message. If you are interested in Clandestines too, please ask me for the complete version of the Black Book.

BENEATH THE MASK: RADIO PAMELA

Stefan Printz Tegelgårdsgatan 14 211 33 MALMÖ SWEDEN xtdspz@imd.ericsson.se

Last summer, on the 6th of August to be precise, Radlo Pamela surprisingly returned on the 41 metre band. Last spring, Pamela was raided by the DTI and few had expected such a quick return by the station. With fiery spirit Steve Most, station manager and DJ on the station, Pamela has survived many years of trouble with the DTI and is still one of the more interesting stations on shortwave at present, although the current output is just 10 W.

The broadcasts on 41 metres (7490 kHz) were cancelled shortly after the test in August, although regular programmes were promised. Pamela turned to 3945 kHz instead with an own-built 5 W transmitter, and recently it was decided to use the 41 metre transmitter for broadcasts on 6210 kHz in the 48 metre band. Half-wave dipoles are used for both bands.

The 76 metre broadcasts are intended to be carried out once a month on Friday nights into Saturday mornings, starting off at 22 UTC until 8 UTC! Through the night you can listen to Brian Young, Richard Graham, Steve Most, Chris Francis and hopefully also DJ Robbo. Brian Young is perhaps not the youngest DJ, but undoubtedly one of the

Brian Young.

newest jocks who started on Pamela three years ago, Brian's music tastes are classic

rock and blues music which are not played too often over the shortwave plrates these days.

In addition to this regular service, there will be broadcasts Saturday afternoons on an irregular basis, starting at either 15 or 16 UTC.

When I mentioned the rald to Steve and said that it must have been a tough time for them to build up everything so quickly again, he says that it really didn't cause much harm.

- It isn't really worth talking about. All that happened was two DTI officers tracked me down to one of our transmitter sites and took the 10 W 48 metre transmitter and cassette player, battery for running the transmitter, all the things I needed to put out a broadcast from a wood or field, in other words portable equipment made for outside broadcasts only. None of our broadcasts are done via a live studio because it's much safer in the long run to use portable equipment and you don't lose studio, records etc. Only transmitter and tape player, easy enough to replace. A transmitter doesn't take long to build, I can build one in a couple of hours as long as I have all the parts and box for it, and a cassette player to get cheap enough second-hand.

Personally, I feel very satisfied about the fact that Pamela is back on the aliwaves. They have always had a friendly attitude towards the audience and Steve Most is one of the nicest persons I know in Free Radio, although I've never met him face to face. Recently he made new promotion jingles for Pirate Connection which soon will be distributed to the European Free Radio stations. Be sure that Radio Pamela will confinue to be one of UK's flagships and hopefully they will improve the power to Improve the reception for listeners outside the UK.

LEVEL ONE M7'L

Chris ise
Box 220342
42373 WUPPERTAL
GERMANY
CW(@sis.joy.se

Unfortunately with bad conditions on 48 meters on BoxIng Day 1995 Level One International once more stroke back with anther unique show from the early morning till the late afternoon. For those who do not know anything about Level One International here is a short Introduction for you:

(Scotland), Crazy Wave Radio (Germany), Radio Fusion International (Sweden), Radio Torenvalk (The Netherlands), Speedwing Radio, and Süd-West-Radio (both German).

Although propagations went up and down this day, there were fair to good signals from

The idea for Level One International can be dated back to December 10th during a trip to the good old Pirate-Netherlands. After cancelling the Level 48 transmissions between several German stations there should be another evidence be shown that there is an excellent cooperation between most well known Free Radio Stations possible, not only on a national basis. On Boxing Day not less than eight Free Radio Stations participated and the second Level One International broadcast was on the air from 0800 UTC to 1630 UTC. After some ID loops the unofficial broadcast officially was started by Dutch Transatiantic Radio, followed by German Radio Benelux, Weekend Music Radio

all stations somewhere in Europe. Unfortunately only a few reports were received from the listeners although it was anounced that every report is needed.

So hurry up and send your report as fast as possible to the Wupperfal maildrop. Future plannings are to find more well-known stations joining the Level One crew, first contacts are made so far. For organizational reasons Level One International can be on the air only twice a year, but of course all stations stay in closer contact during the shows. Other people are still planning a united Europe – we have it already!!!

IMPORTANT NOTES: When sending a report via the DPRS please enclose 2 IRCs for letters, or 3 IRCs for tapes. Stations marked (A) are verifiable via DPRS, 12 Dorman Road, Preston, PR2 6AS, ENGLAND.

PLEASE MARK REPORTS EITHER WITH:

DFRS REPLY OR <u>DIRECT REPLY</u>. If no indication is given the report will be sent DIRECT TO THE PIRATE! <u>ALWAYS ENCLOSE</u> 1 IRC or \$1US for the station, and 1 IRC or \$1US for forwarding costs. 3 IRCs or \$3US are required for tapes because of the additional costs.

** Never put 'RADIO' or Station name on the envelope, use initials or the abbreviation 'D.P.R.S'. **

SOME INFORMATION ABOUT DPRS:

The Dutch Pirate Radio Service helps DXers to send reports to those stations who don't have a post box or wish to make known their private address.

The DPRS cannot guarantee a reply from these small stations. The pirates with post box numbers often do reply to reports, but you may have to wait some time for an answer. The smaller pirates, as I said, rarely reply, or if they do, you must be prepared to receive a letter in Dutch, which may take many months, and might require several follow up reports.

DUTCH STAMPS

The DPRS has a quantity of 1 Guilder stamps for sale at only £3.00p for 6 stamps. This includes cost and postage.

251-COLLECTION

Jonny Augustsson Östra Porten 29 442 54 YTTERBY SWEDEN jonny@mallbox.kdtnet.se

Welcome back to QSL-Collection. A great list this time. But please report the QSL's when you receive them, so I don't receive 1 year at one time!

CRAZY THOUGHTS

Chris ise
Box 220342
42373 WUPPERTAL
GERMANY
cwr@srs.joy.se

HI there.

After the Rambling Thoughts by Jolly Jake and Starry Thoughts by KIm Hawk here is another controversial page for Pirate Connection from my side. Maybe this will published from now in every issue of this mag (if Stefan do not lose so much readers!!!). This page should not cause any trouble or flights but hopefully can start a discussion about basic things concerning Free Radio and what is around it. But be happy: There will be no discussion about "Tape Stations" here anymore..... Comments are welcomed and might be published here in PC#14.

O.K., let's start the crazy thoughts now:

The quality about listeners reports to Free Radio Stations is always discussed between the OPs of the stations. Should Free Radio give QSL collectors another field on shortwave for hunting QSLs as Biörn Quäck wrote in his introduction to his exellent book "Vogelfreies Radio" ? Can a Free Radio Station be interested in a SW-Dxer or should the pxs be for programme listeners? Normally shortwave has the problem that most of the llsteners are Dxer, who mainly are interested in the verification of a station located far away from there QTH. FR Stations are broadcasting also on shortwave to reach a larger auditorium as it is possible on FM where nowdays everybody only is tuning for a new channel if the programme of his favourite channel do not appreaciate him for a moment. On shortwave it is usual to search in a band for special stations. So also DXers are finding the way in the "pirate bands". Most of the listeners writing to a Free Radio Station are writing for receiving the verification. But this has nothing to do with the main reason why OPs go on the gir on weekends. They try to create a radio feeling that is missing at the legal broadcasters, also sometimes on a very basic level. Many OPs preparing a one hour px several hours the days before and are on the air by a mobile transmitting

equipment. That means they are also several hours on the road to a hopefully secret place. If this transmission was successful or not the Op normally knows in the evening hours of the same day after calling some friends and monitoring stations. So in my opinion a listener should send his opinion to the heart programme, not only his SINPO. If stations receive reports with O=1-2 and comments as " very deep fading and so ! received only 10 min. but I could not understand your talks very good" this report do not make any sense to a Free Radio OP! But if llstners should write reports as much as the can, they do not do this!!! On boxing day 1995 the Level One Int. network was on the air Although there were bad propagations it was possible to receive some involved stations by an audiable signal. So some OPs are thinking to reduce this QSL service as the want to concentrate on programmes not on verifying reports hours for hours every evening and if you do not verify among two months you have to apologize or you can find yourself written on a black list. My favourite listeners are those who write about every two months for several shows they have heard during the last weeks. Maybe Subterranean Sounds can be representative for this year when refusing QSL reception reports! Free Radio does not make sense if a OP must spend more hours for verifying reports than producing programmes...

Chris Ise

RAMBLMG 740UGH75

Jolly Jake adio Fusion Internationa fusion@srs.iov.se

Believe it or not, folks, I'm back! Not only with this breathtaking return to this magic column. My dear baby Radio Fusion International has also returned. I'm not kidding folks. Last autumn I was invited by Chrls Ise of Crazy Wave Radio to join the Level 1 International project. After some hesitation I said yes and thanks to Chris I'm now back on shortwave. Sometimes It's just amazing how other people can Impact on you. I met this young guy last summer during his 'summer radio' broadcasts from Sweden, and let me tell ya, this guy's got a great talent in everything he does for Free Radio and what counts most, he puts lots of energy and enthusiasm into the hobby. He literally spoke me into making a return and gave me the opportunity to participate in the exciting Level 1 event with a 45 minute programme. This had a catalytic effect on me. I had to arrange everything rather guickly, improve the studio, get a new transmitter, find a new transmitting site etc. In early December, I had still done nothing. Thanks God miracles still seem to occur. By mid-December I had fixed myself a new 200 W transmitter, Yes, 200 W folks. And It works like a clock... Poor little Kim Hawk of Starshine Radio may now shout with 100 dB into his little mike without nobody hearing him. Klm used to be so proud of his 50-60 W or whatever he's using and always made annoying remarks to me for my "poor signals". Yes, I used to have poor signals and that was the main reason for my inactivity the last two years. For some reason Kim has not been talking about power the last couple of weeks... I'm waiting for you Kim (if you know what I mean...). So what about the other transmitter? It's still there and I might go on 76 metres whenever the condtions are favourable. I might even carry out two-band broadcasts in the near future, nothing is for sure though. The 41 metre band tend to be out of fashion these days and more and more pirates are returning to 48 metres. Well, let me complete my story. Just before

Christmas, I bought myself an MD-player (mini disc) for my studio, and this enables me to make nice studio recordings in CDquality. Costed loads of money (\$1300), but well worth the investment. The next thing, and perhaps the most complicated part, was to find a suitable and permanent transmitting site. You know, I'm a lazy type of guy, so a temporary site was just out of question. Luckly I was allowed to borrow a room in a farmer's house on the countryside, somewhere in my native country Sweden. Here I can go as much as I want and get splendid reception with no disturbances whatsoever from annoying TV-watchers or whatever. I rigged all the things up, made a new half-wave dipole antenna (phew, this was the worst part, -15°C outside and it took me over three hours to hang it up). Then came the thrilling moment... It was Christmas Day, one day before the Level 1 broadcast and everything had to run palnlessly... Luckily It did, well almost at least. Had some slight problems with the modulation which was mainly due to the lack of a limiter In my studio (to get one will be my next priority...), but the next day everything went perfect. Radio Fusion International was back on the air again to everybody's astonishment! Conditions were awful this day, but never mind...I was back again and that was what was most important to me... I can now broadcast whenever I feel like it but don't expect too many broadcasts from me. I'll try to come on the air at least once every two months. At the moment, I'm still working hard to get a very high-quality studio and as this work gets more complete, the more broadcasts you may expect. My next broadcast will hopefully be carried out February 18th on 6260 kHz, so keep an eye on that frequency. If the conditions are good I'm sure you"ll have a great reception of my station! May peace be with you and see va all again soon!

Jolly Jake
